

## EVO® Espresso Machine Cleaner

With its rapidly soluble and free-rinsing formulation, EVO® removes coffee oils, grounds and stains, improving the taste and aroma of espresso.

Ingredients are rapidly biodegradable and odorless.

Non-GMO and free from phosphates and chlorine.

Non-corrosive formulation to protect the machine.

A measuring scoop is included in 1kg and 500g jars for accurate dosing.

### Certifications

NSF Protocol P152  
Health Effects and Corrosivity  
of Commercial Espresso  
Machine Chemical Cleaners

### PROCEDURE TO BACKFLUSH EACH DELIVERY GROUP

1. Remove coffee filter from group handle, and replace with blind filter.
2. For daily cleaning add 1 level scoop of EVO® into the group handle and insert as if brewing espresso.
3. Start cycle and allow to run for 10 seconds to dissolve cleaner.
4. Stop cycle and allow to sit for 10 seconds.
5. Start and stop cycle 4 more times - run for 10 seconds, stop for 10 seconds.
6. Remove the group handle and rinse well under stream of water from delivery group. Turn off.
7. Re-insert handle with blind filter, start and stop cycle 10 times - run for 5 seconds, stop for 2 seconds to ensure thorough rinsing.
8. Remove blind filter and insert regular filter.
9. Brew and discard a single espresso to re-season machine.
